

EFFICE®

more than a luminaire, it's a concept...

Effice® allows you to light just the right way, in the right place, and at the right moment...

Our challenge: the right light level, in the right place, driven by high-performance, energy-saving electronics.

Effice® is the smallest possible number of fittings, the lowest possible consumption, with maximum comfort and safety.

Effice is easy to install in a master / slave system. Each luminaire operates on a stand-alone basis. Thanks to radio-controlled synchronization, there's no longer any need to run special wiring between the luminaires.

Light spot-on thanks to an eco-designed luminaire.

Light output targeted and suited to the type of application, extinction warning, wireless communication mode, remote-controlled settings, etc.

The Effice luminaire will astound you by its performance and ease of use.

EFFICE® is available for 3 types of application:

- **General lighting** (opal diffuser and LEDs without optics),
- **Stairways** (clear diffuser, LEDs with asymmetric optics),
- **Corridors** (clear diffuser, LEDs with symmetric optics).

Maximum energy efficiency.

Effice® is an eco-designed luminaire suitable for various different applications, for better illumination with reduced power consumption.

For an equivalent, standards-compliant result in terms of illumination level and uniformity...

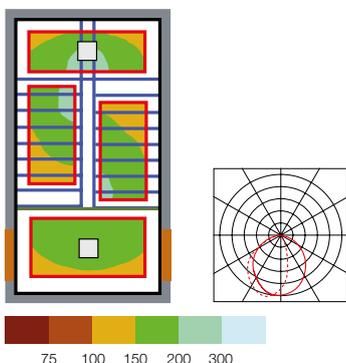

Up to 70% fewer luminaires to install.
Up to 70% energy saving.

Effice® for stairways

Lighting calculations:
stairway for average 150 lux, in 4000 K

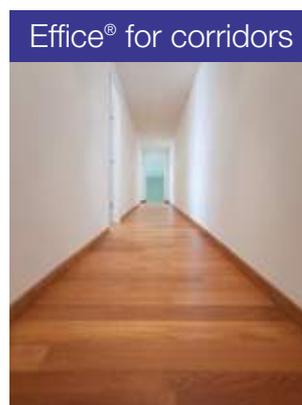

5 m x 2.6 m, ceiling height 2.5 m and stairwell height 10.6 m, simulation for a 4-storey building, one ceiling fitting on each landing + one on each half-landing.

- > 150 lux average
